Kannst du das Muster übertragen?

A 5x5 dot grid on the left contains a blue pattern. The pattern consists of a vertical line on the far left, a horizontal line at the bottom, and a triangle with its base on the horizontal line and its apex at the top-right dot. A diagonal line crosses the triangle from the top-right dot to the center dot. To the right of this grid is an identical empty 5x5 dot grid for copying the pattern.

A 5x5 dot grid on the left contains a blue pattern. The pattern consists of a square with a triangle attached to its right side. The square's top-left corner is at the top-left dot, and its right side is on the right edge of the grid. The triangle's base is the right side of the square, and its apex is at the center dot. To the right of this grid is an identical empty 5x5 dot grid for copying the pattern.
